

How to get scholarship and tuition exemption information

Scholarship information: Web page

The Science Tokyo current student website posts daily announcements for current students. When there is new scholarship information from private foundations or other organizations, the announcement can be found on the Science Tokyo current student website.

You can find announcements tagged with "tuition and scholarships" at the following URL:

1. English <https://students.isct.ac.jp/en/news?tab=112>
2. 日本語 <https://students.isct.ac.jp/ja/news?tab=112>

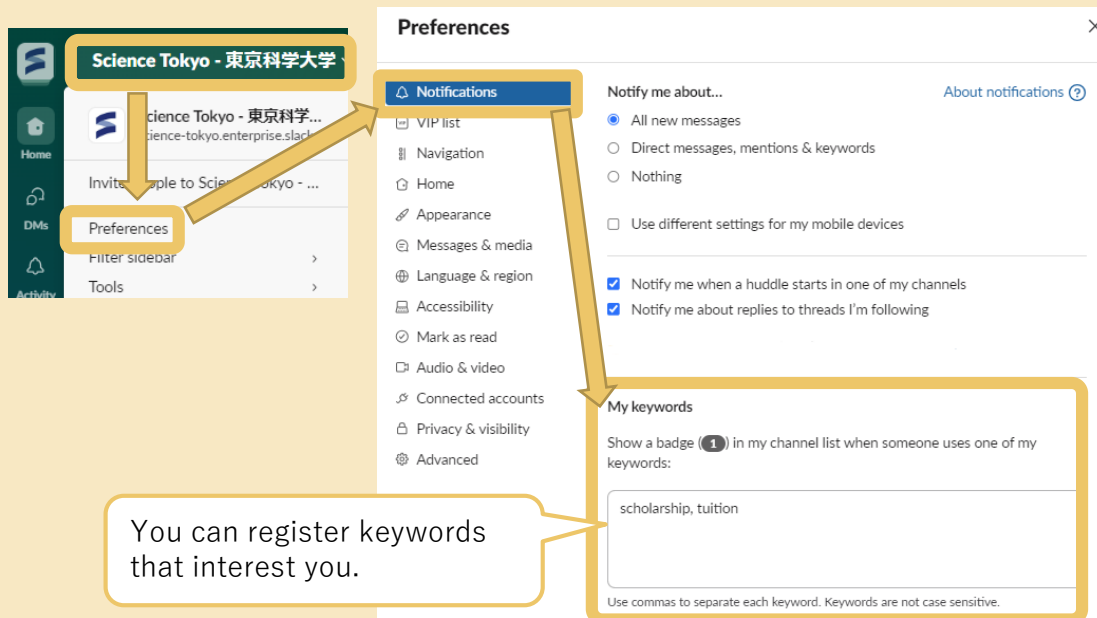

Scholarship information: Slack

Announcements for current students posted on the web page will also be automatically posted to the following Science Tokyo Slack channels.

1. English [#rss-current-students-all](#)
2. 日本語 [#rss-在学生-all](#)

We recommend setting up your own keywords in Slack, as you can easily get necessary information.

The image shows a screenshot of the Slack mobile app interface. On the left, the 'Science Tokyo - 東京科学大学' workspace is selected. The 'Preferences' menu is open, and the 'Notifications' option is highlighted. The 'My keywords' section is expanded, showing a text input field containing 'scholarship, tuition'. A callout box points to this section with the text: 'You can register keywords that interest you.' Below the input field, a note states: 'Use commas to separate each keyword. Keywords are not case sensitive.'
